

# **Design Thinking**

Presentation by Tori Morton and Kimberly Kline

Tori's contact information: [vemorton@gmail.com](mailto:vemorton@gmail.com)

In short, Design Thinking is a process of critical thinking used to develop solutions to problems through collaboration, innovation and design. Design Thinking helps prepare students for a world where skills such as teamwork, problem solving, communication, analysis, creativity, and the ability to influence others is becoming increasingly important in the work force. Design Thinking Units offer a hand on, exciting way to integrate art, persuasion, creativity and teamwork into areas of study.

## **Project Reflection**

1. What was your favorite part of the Design Thinking project?

2. What would you like to change about the project?

3. Is there something about the project that was confusing?

4. What is something you learned from doing this project?
